Reference: Funding opportunities through Olympic Solidarity Programs

Dear

During the WorldHockey Forum in London in November 2006 the IOC presented the various funding opportunities through Olympic Solidarity Programs.

Our International Federation has provided us with a summary of the different programs. For our National Hockey Federation the Olympic Solidarity (**fill out:** *Team Support Grant, Technical Courses for Coaches, Scholarships for Coaches, Development of National Sports Structures program, Sports Medicine program, Women and Sport program, Sport for All program, National Training Courses for Sports Administrators*) would be most appropriate.

NB: read the program sheet carefully and then select the program(s) which are most suitable.

Explain why you would like to receive this grant; explain the strength of your hockey program or situation (in comparison with competing sports). Add your National Hockey Development Plan, if available.

We would like to arrange a meeting with your committee to discuss the opportunity to be awarded with such a grant, as we are aware that the NOC is selecting the sports for the different OS programs.

Kind regards,
